## **Independent Auditors' Report**

The Board of Directors ElectriCities of North Carolina, Inc. Raleigh, North Carolina

We have audited the accompanying balance sheets of ElectriCities of North Carolina, Inc., (the "Agency"), as of December 31, 2011 and 2010, and the related statements of revenues and expenses and changes in fund equity and cash flow for the years then ended, which comprise the Agency's basic financial statements. These basic financial statements are the responsibility of the Agency's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of ElectriCities of North Carolina, Inc. as of December 31, 2011 and 2010 and the changes in financial position and in its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Management's Discussion and Analysis, the schedule of funding progress, employer contributions and notes to the required schedules for the Other Post Employment Benefits are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit this information and express no opinion thereon.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The other financial information as listed in the table of contents as of and for the years ended December 31, 2011 and 2010 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

We did not audit the data in the statistical section of this report and, accordingly express no opinion thereon.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

## Management's Discussion and Analysis (MD&A)

As management of ElectriCities of North Carolina, Inc. (ElectriCities), we offer this narrative overview and analysis of the financial activities of ElectriCities for the years ended December 31, 2011 and 2010. This information should be read in conjunction with the information furnished in ElectriCities' financial statements that follow this narrative.

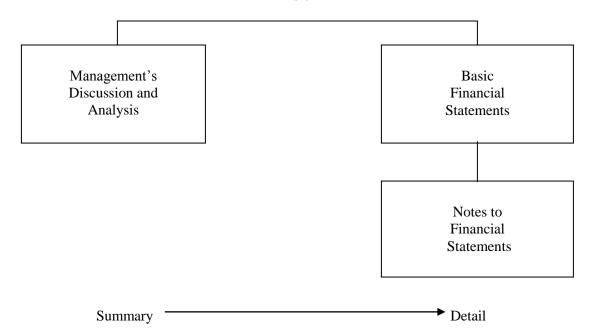

#### **Financial Highlights**

- ElectriCities' basic financial statements consist of a single enterprise fund.
- At December 31, 2011 and 2010, ElectriCities' assets exceeded its liabilities (fund equity) by \$1,154,630 and \$1,228,201, respectively.
- ElectriCities' unrestricted fund equity was \$20,896 at both December 31, 2011 and 2010.
- ElectriCities is not authorized to issue debt and therefore, has no debt.
- Dues billings were \$1,076,177 and \$970,707 for 2011 and 2010, respectively.
- In accordance with its bylaws, ElectriCities will refund \$165,308 and \$235,923 of the billed dues for 2011 and 2010, respectively.

#### **Overview of the Financial Statements**

This MD&A serves as an introduction to ElectriCities' basic financial statements and notes to the financial statements (see Exhibit 1). In addition to the basic financial statements, this report contains other supplemental information designed to enhance your understanding of the financial condition of ElectriCities.

#### Required Components of the Annual Financial Report Exhibit 1

#### **Basic Financial Statements**

ElectriCities is a special purpose government that accounts for its activities as a business type entity. The first section of the basic financial statements is for ElectriCities' single proprietary fund that focuses on its business activities. The statements are designed to provide a broad overview of ElectriCities' finances and provide short and long-term information about ElectriCities' financial status, operations and cash flow. They report fund equity and how it has changed during the period. Fund equity is the difference between total assets and total liabilities. Analyzing the various components of fund equity is one way to gauge ElectriCities' financial condition.

The second section of the basic financial statements is the notes that explain in more detail some of the data contained in the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes are on pages 13 through 22 of this report.

After the notes, additional information is provided. Required supplemental information is on page 23, additional financial information is on pages 26 to 31, and statistical information is on pages 35 to 54.

#### **Financial Analysis**

The enterprise fund financial statements for the years ended December 31, 2011 and 2010 are presented in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 34.

### Fund Equity Exhibit 2

	December 31,		
	2011	2010	2009
Assets			
Capital assets	\$ 1,133,735	\$ 1,207,305	\$ 506,176
Current and other assets	5,562,650	4,684,189	3,424,722
Total assets	6,696,385	5,891,494	3,930,898
Liabilities			
Long-term liabilities outstanding	2,079,627	1,779,868	1,459,422
Other liabilities	3,462,128	2,883,425	1,944,404
Total liabilities	5,541,755	4,663,293	3,403,826
Fund Equity:			
Invested in Capital Assets	1,133,734	1,207,305	506,176
Unrestricted	20,896	20,896	20,896
Total Fund Equity	\$ 1,154,630	\$ 1,228,201	\$ 527,072

As noted earlier, the various components of fund equity may serve over time as a useful indicator of ElectriCities' financial condition. ElectriCities assets exceeded liabilities by \$1,154,630, \$1,228,201 and \$527,072 at December 31, 2011, 2010 and 2009, respectively. ElectriCities' fund equity decreased by \$73,571 and increased \$701,129 for the years ended December 31, 2011 and 2010, respectively.

The largest portion of fund equity of \$1,133,734, \$1,207,305 and \$506,176, at December 31, 2011, 2010 and 2009, respectively, reflects ElectriCities' investments in capital assets (e.g. vehicles, furniture and equipment). This amount decreased in 2011 because depreciation on the capital assets exceeded additional spending, and increased in 2010 because additional spending on the assets exceeded depreciation.

An additional portion of ElectriCities' fund equity of \$20,896 at December 31, 2011, 2010 and 2009 represents unrestricted fund equity. Unrestricted fund equity remained unchanged because dues billings exceeded needs and ElectriCities bylaws require the return of any unspent dues to members in good standing.

# Changes in Fund Equity Exhibit 3

	For The Years Ended December 31,			
	2011 2010 200			
Revenues:				
Membership dues	\$ 1,076,177	\$ 970,707	\$ 988,575	
Management services and other program revenues	27,020,354	18,139,852	17,385,815	
Non-operating revenues	266	516	2,328	
Total Revenues	28,096,797	19,111,075	18,376,718	
Expenses:				
Program Expenses:				
Administration	39,073	32,095	52,667	
Safety and Training	732,087	697,695	682,000	
Member Services	283,901	264,035	256,522	
Government Affairs	831	830	851	
Annual Meeting	162,931	150,786	60,246	
Management Services	25,477,812	16,556,273	16,072,937	
Regions Project #1	1,218,534	1,164,993	1,161,209	
Regions Contract Services	-	8,445	16,163	
Energy Auditor	16,320	-	-	
Depreciation and amortization	475,253	285,179	260,282	
Refund of excess dues	165,308	235,923	74,123	
Total Operating Expenses	28,572,050	19,396,254	18,637,000	
Loss before capital contributions	(475,253)	(285,179)	(260,282)	
Capital Contributions	401,682	986,308	240,162	
(Decrease) increase in Fund Equity	(73,571)	701,129	(20,120)	
Fund equity January 1	1,228,201	527,072	547,192	
Fund equity December 31	\$ 1,154,630	\$ 1,228,201	\$ 527,072	

Revenues totaled \$27,972,955, \$19,111,075, and \$18,376,718 for the years ended December 31, 2011, 2010, and 2009, respectively. Sources of revenues are derived from membership dues, management services and other program revenues, and non-operating revenues.

The following contributed to the changes in revenues for the calendar years ended December 31, 2011, and 2010, respectively:

- In 2011 membership dues increased by \$105,470. The increase was attributed to increased services provided by ElectriCities which include, among other programs, safety and training, communications assistance, and legal and legislative support. In 2010, membership dues decreased by \$17,868. The 2009 dues were inflated because of the costs associated with the cancellation of the 2009 annual meeting. No such costs were incurred in 2010.
- In 2011 and 2010, management services and other program revenues increased by \$8,880,502 and \$754,037, respectively. The increase was primarily attributed to a change in methodology in the recognition of certain expenses. Please see Note E on Page 18 of this report for a further explanation of management services.
- Non-operating revenues decreased by \$250 and \$1,812 in 2011, and 2010, respectively, primarily due to changes in investment rates.
- In 2011 and 2010, fund equity decreased by \$73,571 and increased by \$701,129, respectively. The 2010 increase was attributable to contributions for key capital expenditures (see Capital Assets and Debt Administration below); these expenditures were treated as equity contributions.

#### **Capital Assets and Debt Administration**

#### **Capital Assets**

ElectriCities' investments in capital assets at December 31, 2011, 2010 and 2009 totaled \$1,133,734, \$1,207,305 and \$506,176, respectively, (net of accumulated depreciation and amortization). These assets include vehicles, furniture and equipment.

Major capital asset transactions during 2011 and 2010 include the following:

- In 2011, the carpet within the Agency's central office was entirely replaced and new computer networking equipment was installed.
- In 2010, the phone system was replaced and new air conditioning units were installed in the data center.
- In 2011 and 2010, four and nine vehicles, respectively, were purchased for \$110,357 and \$186,695, respectively.
- Ten and five vehicles were retired in 2011 and 2010, respectively.
- In both years, purchases of office equipment and furnishings accounted for the remainder.
- ElectriCities' capitalization threshold for capital assets is \$500.

#### Capital Assets Exhibit 4

Total Furniture and Equipment, Net	\$ 506,176	\$ 701,129	\$ -	\$ -	\$ 1,207,305

Additional information regarding ElectriCities' capital assets can be found in Note D beginning on page 18 of this report.

#### **Outstanding Debt**

ElectriCities is not authorized to issue debt and therefore, has no outstanding debt at December 31, 2011 or 2010.

#### **Next Year's Budgets and Dues**

#### **Budget Highlights for 2012**

- There is a dues increase of 2.9%.
- There is a general contingency of \$28,000.
- Safety & Training, Government Affairs, Member Services and ElectriCities Administration programs receive dues support.
- The Annual Meeting is fully funded by registrations, other fees and sponsorships and receives no dues support.
- Management Services and Regions Project #1 programs are paid for by those entities utilizing the services and receive no dues support.

#### **Requests for Information**

This report is designed to provide an overview of ElectriCities' finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Chief Financial Officer, ElectriCities of North Carolina, Inc. P.O. Box 29513, Raleigh, NC 27626-0513.

#### Note A. General Matters

ElectriCities of North Carolina, Inc. (ElectriCities) is a joint municipal assistance agency organized under Chapter 159B of the North Carolina General Statutes (G.S.). It is the successor organization of ElectriCities of North Carolina created in 1965 as a voluntary, non-profit association to serve the interests of North Carolina's municipal electric systems. ElectriCities provides aid and assistance to member municipalities in North Carolina, South Carolina and Virginia and to member constituent institutions of the University of North Carolina in the construction, ownership, maintenance, expansion and operation of their electric systems.

ElectriCities is involved in four major areas of activity on behalf of its members: (1) professional management services for the North Carolina Municipal Power Agencies (Agencies) (see Note E); (2) federal regulatory matters; (3) legislation and other public policy issues; and (4) member services, which include assistance with local problems, informational services and safety and training assistance.

The members are assessed annual dues to fund the various programs except for management services which is funded by the Agencies (see Note E), Regions Project #1 which is funded by Huntersville and Cornelius, Regions Contract Services which is funded by those cities utilizing the services (see Note J), the Energy Auditor Program which is funded by a state grant from the North Carolina Energy Office and North Carolina Eastern Municipal Power Agency, and the Annual Meeting which is funded by registrations, sponsorships and other fees. ElectriCities' bylaws require that each year's excess revenues (modified accrual basis) be refunded to its members in good standing in a future year.

#### Note B. Summary of Significant Accounting Policies

The financial statements of ElectriCities are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of ElectriCities' accounting policies are described below.

#### Application of FASB Standards

In accordance with GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting," ElectriCities has elected not to apply Financial Accounting Standards Board (FASB) statements and interpretations issued after November 30, 1989.

#### **Basis of Accounting**

ElectriCities reports in accordance with GASB Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments" (GASB No. 34). The statement requires certain information be included in the financial statements and specifies how that information should be presented.

The accrual basis of accounting is followed whereby revenues are recognized when earned and expenses are recognized when incurred.

#### Note B. Summary of Significant Accounting Policies (continued)

## Financial Reporting

The financial statements are prepared using the economic resources measurement focus. Operating revenues are defined as dues and revenues received for Agency services provided to members. Revenues from investment activities are defined as non-operating revenues. The Agency has no restricted equity. Unrestricted equity may be utilized for any purpose approved by the Board through the budget process.

### **Reporting Entity**

In evaluating how to define ElectriCities for financial reporting purposes, management has considered all potential component units. The decision to include potential component units in the reporting entity is made by applying the criteria set forth in the GASB standards. ElectriCities' lack of financial accountability is the primary criterion for excluding potential component units from the reporting entity. The specific elements of financial accountability considered in the decision to exclude the potential component units were the selection of governing authority and fiscal dependency.

While ElectriCities provides assistance to member municipalities, it has no financial accountability for any of them. Therefore, none of the member municipalities are included as component units of ElectriCities.

#### **Fund Accounting**

ElectriCities reports as a single enterprise fund. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises.

#### Measurement Focus

The single enterprise fund of ElectriCities is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of this fund are included on the balance sheet. The operating statement presents increases (revenues) and decreases (expenses) in fund equity. As required by GASB Statement No. 33, "Accounting and Financial Reporting for Non-exchange Transactions," ElectriCities recognizes capital contributions as revenue.

#### **Budgetary Data**

An annual balanced budget, as required by the Local Government Budget and Fiscal Control Act, is adopted and is prepared using the modified accrual basis of accounting.

Budgetary control on expenditures is at the total expenditure level. Individual line item expenditures can exceed budgeted amounts as long as total expenditures do not exceed budgeted amounts. The budget can be amended at any time by majority vote of the Board of Directors.

Encumbrance accounting, under which purchase requisitions for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is used. Only those encumbrances outstanding at year-end for which there are contractual liabilities are reported. Unspent budget appropriations lapse at year-end and must be budgeted again in the following year.

#### **Note B. Summary of Significant Accounting Policies (continued)**

Equipment and furnishings additions are budgeted as an expenditure of the year they are acquired in order to provide sufficient funds to purchase the assets. Depreciation for each program is not budgeted.

#### Cash and Investments

ElectriCities has adopted GASB Statement No. 40 "Deposits and Investments Risk Disclosures" which modifies disclosure requirements related to custodial risk by only requiring disclosure of deposits or investments facing substantial custodial risk. The statement requires new disclosures related to credit risk, concentration risk, interest rate risk and foreign currency risk.

At December 31, 2011 and 2010, ElectriCities' investment balances consisted of amounts invested in the North Carolina Capital Management Cash Portfolio. The investment in this money market mutual fund is essentially a demand deposit, has been reported as cash equivalents in the accompanying financial statements and is stated at fair value.

	December 31,			
	2011 2010			
Investments	\$ 2,580,946	\$ 3,134,146		
Cash	198,644	85,354		
Cash and Cash Equivalents	\$ 2,779,590	\$ 3,219,500		

For purposes of the Statements of Cash Flows, ElectriCities considers all highly liquid investments with original maturities of three months or less when purchased, to be cash equivalents.

## Compensated Absences

It is ElectriCities' policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Vacation pay is accrued when incurred and reported as a liability. When determining the vacation pay liability due within one year, leave is considered taken on the last in, first out (LIFO) basis. Unused vacation pay is paid to the employee at the time of termination. Unused sick pay benefits terminate with an employee's employment and therefore no liability is reported for unpaid accumulated sick leave.

Accrued vacation is \$1,429,265, \$1,296,244 and \$1,173,494 at December 31, 2011, 2010 and 2009, respectively, and increased \$133,021 and \$122,750 in 2011 and 2010, respectively.

#### <u>Defined Benefit Pension Plan</u>

ElectriCities has adopted GASB Statement No. 27, "Accounting for Pensions by State and Local Government Employers," (GASB No. 27) which states that employers that participate in multi-employer defined benefit plans are required to measure and disclose an amount for annual pension costs on the accrual basis of accounting.

#### Note B. Summary of Significant Accounting Policies (continued)

#### Retiree Health Benefit Plan

ElectriCities has adopted GASB Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions" (GASB No. 45) which requires governments to report costs of post-employment health care and other post-employment benefits not provided as part of a pension plan on the accrual basis of accounting, rather than on a pay-as-you-go basis. These costs are reported similarly to how pension costs are reported.

#### **Termination Benefits**

ElectriCities has adopted GASB Statement No. 47 "Accounting for Termination Benefits" (GASB No. 47), which states that employers are required to recognize a liability and expense for voluntary termination benefits (for example, early-retirement incentives) when the offer is accepted and the amount can be estimated, and for involuntary termination benefits (for example, severance benefits) when a plan of termination has been approved by those with the authority to commit the government to the plan, the plan has been communicated to the employee(s) and the amount can be estimated.

ElectriCities is a member of the Local Government Employees' Retirement System (LGERS), a multiemployer, cost sharing, defined benefit pension plan administered by the state of North Carolina. The Agency has determined that as an exception to the general recognition and measurement requirements under GASB No. 47, the effects of a termination benefit on an employer's obligations for the defined benefit pension plan should be accounted for and reported under the requirements of GASB No. 27.

There are no material termination benefits outstanding as of December 31, 2011 and 2010, respectively.

#### Capital Assets

The capitalization threshold for capital assets is \$500. Equipment and furnishings are valued at historical cost. Depreciation is recorded on a straight-line basis over the estimated useful lives of respective assets which range from three to ten years.

#### Statistical Section

GASB Statement No. 44 "Economic Condition Reporting: The Statistical Section" enhances and updates the statistical section that accompanies a state or local government's basic financial statements to reflect the significant changes that have taken place in government finance, including the more comprehensive government-wide financial information required by GASB. The statistical section comprises schedules presenting trend information about revenues and expenses, outstanding debt, economics and demographics, and other subjects. These schedules are intended to provide financial statement users with contextual information they need to assess a government's financial health.

#### <u>Taxes</u>

Income of ElectriCities is excludable from federal income tax under Section 115 of the Internal Revenue Code.

#### **Note B. Summary of Significant Accounting Policies (continued)**

#### **Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Future GASB Standards

In November 2010, GASB issued Statement No. 60, "Accounting and Financial Reporting for Service Concession Arrangements." This statement improves financial reporting over service concession arrangements, which are a type of public-private or public-public partnership. This Statement is effective for periods beginning after December 15, 2011, and is not expected to have a material effect on the Agency's financial position, overall cash flow or balances or results of operations.

In November 2010, GASB issued Statement No. 61, "The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34." This Statement improves financial reporting for a government financial reporting entity. This Statement is effective for periods beginning after June 15, 2012 and is not expected to have a material impact on the Agency's financial position, overall cash flow or balances or results of operations.

In December 2010, GASB issued Statement No. 62, "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements". This Statement incorporates certain accounting and financial reporting guidance that is included in other GASB pronouncements issued on or before November 30, 1989 into the GASB's authoritative literature. This Statement is effective for periods beginning after December 15, 2011 and is not expected to have a material impact on the Agency's financial position, overall cash flow or balances or results of operations.

In June 2011, GASB issued Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position". This Statement improves financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on a government's net position. This Statement is effective for periods beginning after December 15, 2011 and is not expected to have a material impact on the Agency's financial position, overall cash flow or balances or results of operations.

#### **Note C. Deposits**

All deposits of ElectriCities are made in board-designated official depositories and are collateralized as required by North Carolina General Statute 159-31. Official depositories may be established with one or more banks, savings and loan associations or trust companies in North Carolina or, with written permission of the secretary of the Local Government Commission (LGC), a national bank located in another state. ElectriCities may also deposit monies at interest in those institutions described in the form of certificates of deposit, money market accounts or other forms of time deposits as the LGC may approve. At December 31, 2011, and 2010 ElectriCities' deposits had carrying amounts of \$198,644 and \$85,354, respectively and bank balances of \$2,410 and \$360, respectively. For each of the bank balances, \$250,000 was insured by the Federal Depository Insurance Corporation.

#### **Note C. Deposits (continued)**

At December 31, 2011 and 2010, ElectriCities Investments consisted of \$2,580,946 and \$3,134,146, respectively, in the North Carolina Capital Management Trust's Cash Portfolio, which carried a credit rating of AAA by Standard and Poor's. ElectriCities investment choices are limited by North Carolina General Statute 159-31. ElectriCities has no additional formal policies on credit risk.

At December 31, 2011 and 2010 the average maturity on the portfolio was 51 and 56 days, respectively. The investment in this money market mutual fund is essentially a demand deposit. ElectriCities investments are limited to this liquid fund since all of the cash is required for general operating purposes. ElectriCities does not have additional formal investment policies that limit maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

For cash and investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, ElectriCities will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. ElectriCities has no formal policy regarding custodial credit risk.

## Note D. Capital Assets

	December 31, 2010	Additions	Adjustments	Retirements	December 31, 2011
Furniture and Equipment	\$ 4,066,924	\$ 401,682	\$ -	\$ (212,772)	\$ 4,255,834
Accumulated Depreciation and Amortization	(2,859,619)	(475,253)		212,772	(3,122,100)

Total Furniture and Equipment, Net	\$ 506,176	\$ 701,129	\$ -	\$ -	\$ 1,207,305

In accordance with GASB No. 42, ElectriCities will assess the recoverability of its long lived assets whenever events or changes in circumstances indicate the carrying amount may have been impaired. During 2011 and 2012 ElectriCities determined that such an assessment was not necessary.

#### **Note E. Management Services**

North Carolina Eastern Municipal Power Agency and North Carolina Municipal Power Agency Number 1 ("Power Agencies") are joint agencies organized and existing pursuant to Chapter 159B of the General Statutes of North Carolina to enable municipal electric systems, through the organization of the Agencies, to finance, build, own and operate generation and transmission projects. The Agencies are comprised of 51 municipal electric systems which receive power from the Agencies. All of the Agencies' members are also members of ElectriCities.

#### **Note E. Management Services (continued)**

ElectriCities entered into a contract with each Agency to provide them, at cost, management services as necessary to conduct their business. These agreements are for a period continuing to and including December 31, 2013, and are to be automatically renewed for successive periods of three years thereafter unless terminated by one year's written notice by either party prior to the end of any contract term. Such notice had not been provided as of December 31, 2011.

Effective January 1, 2011, the Agency revised the methodology used in the recognition of certain types of expenditures. Prior to this time, these expenditures, most notably for consulting and other outside services, were directly charged to the Power Agencies. In an effort to better manage such costs, a change in methodology was adopted whereby these expenditures were directly charged to ElectriCities and then billed to the Power Agencies in accordance with the aforementioned management services contract.

#### Note F. Pension Plan

#### Plan Description

All permanent full-time employees participate in the statewide Local Government Employees' Retirement System (LGERS), a multiple-employer, cost sharing, defined benefit pension plan administered by the State of North Carolina. The System provides retirement and disability benefits to plan members and beneficiaries. Article 3 of Chapter 128 of the North Carolina General Statutes assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for the System. That report may be obtained by writing to: The Office of the State Controller, 1410 Mail Service Center, Raleigh, NC 27699-1410, or by calling (919) 981-5454.

#### **Funding Policy**

Plan members contribute 6% of their annual covered salary. ElectriCities contributes at an actuarially determined rate. The current rate is 6.9% of annual covered payroll. The contribution requirements of members and ElectriCities are established and may be amended by the North Carolina General Assembly.

Employee contributions to the System for the years ended December 31, 2011, 2010 and 2009 were \$619,571, \$608,711 and \$605,178, respectively. ElectriCities contributions to the System for the years ended December 31, 2011, 2010, and 2009 were \$682,574, \$564,529 and \$484,143, respectively. These contributions equaled the required contributions for each year.

#### **Note G. Other Post Employment Benefits**

#### Plan Description

ElectriCities provides post-employment health benefits to certain retired ElectriCities employees. It is a single-employer defined benefit plan. This is the only Other Post Employment Benefits (OPEB) under GASB No. 45 which ElectriCities has.

#### **Note G. Other Post Employment Benefits (continued)**

An employee that retires with at least 15 years of employment with ElectriCities, with at least 25 years of credited service in the LGERS and elects an unreduced (full) retirement is eligible for the retiree health benefit. ElectriCities reimburses the employee's health benefit premium at 80% (25 to 29 years of credited service with LGERS) or 100% (30 or more years of credited service with LGERS) of the "employee only" premium for individual major medical (including prescription drug) coverage. If the employee keeps the retiree health coverage in force until they become eligible for Medicare, ElectriCities reimburses 50% of the "employee only" premium for major medical (including prescription drug) coverage under the ElectriCities group insurance or the actual amount incurred for a supplemental Medicare policy, whichever is less.

A separate report was not been issued for the Retiree Health Benefit Plan.

#### Funding Policy

ElectriCities finances the Retiree Health Benefit Plan with actuarially determined annual contributions from the Power Agencies that are set aside for future retiree health insurance premiums. The funds are used to pay the health insurance premiums incurred under the Plan. The cumulative contributions are included in the "Cash and Cash Equivalents" as reported on the Balance Sheets. The assets are solely the property and rights of ElectriCities subject to the claims of ElectriCities general creditors. ElectriCities believes it is unlikely that it will use the funds to satisfy the claims of general creditors in the future. The Board of Directors reserves the right and shall have complete discretion to amend, modify or terminate these benefits at any time. If the Retiree Health Benefit Plan is terminated, any amounts funded in excess of premiums paid to date will be refunded to the Power Agencies. ElectriCities does not anticipate that the Plan will be amended or terminated during 2012. Accordingly, ElectriCities has recorded a non-current post employment obligation and accrued expense liability for the unexpended amount of funds collected from the Power Agencies for the financing of the Retiree Health Benefit Plan as of December 31, 2011, and future years, respectively.

#### Annual OPEB Cost and Net OPEB Obligation

ElectriCities calculates the OPEB cost based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded liabilities (or funding excess) over the next thirty years. The following table shows the components of ElectriCities annual OPEB cost for the year, the amount actually contributed to the plan and changes in the net OPEB obligation to the Retiree Health Benefit Plan.

2011	2010
\$ 246,529	\$ 246,529
5,754	5,754
(7,998)	(7,998)
244,285	244,285
(39,271)	(47,257)
205,014	197,028
557,230	360,202
\$ 762,244	\$ 557,230
	\$ 246,529 5,754 (7,998) 244,285 (39,271) 205,014 557,230

#### **Note G. Other Post Employment Benefits (continued)**

ElectriCities annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for 2011, 2010, and 2009 is as follows:

		Percentage of	
For the Year Ended	Annual	Annual OPEB	Net OPEB
December 31,	OPEB Cost	Cost Contributed	Obligation
2011	\$ 244,285	22.23%	\$ 762,244
2010	\$ 244,285	19.34%	\$ 557,230
2009	\$ 244,285	11.48%	\$ 360,202

#### Funding Status and Funding Progress

As of December 31, 2008, the most recent actuarial date, the plan was not funded according to the definition per GASB 45. The unfunded actuarial accrued liability for benefits (UAAL) was \$2,015,431. The covered payroll (annual payroll of active employees covered by the plan) was \$10,271,067, and the ratio of the UAAL to the covered payroll was 19.6%. Actuarial methods of an ongoing plan involve estimates of the value, reported amounts and assumptions about the probability of occurrences of events far into the future. Examples include assumptions about future employment, mortality and healthcare trends. Amounts for ElectriCities are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statement, presents trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial accrued assets, consistent with the long-term prospective of the calculations.

In the December 31, 2008 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.00% investment rate of return which is the expected long-term investment return on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual medical cost trend rate of 10% to 5% with 2015 the year of ultimate trend rate. Both rates included a 3.75% inflation assumption. The actuarial value of the assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five year period. The UAAL is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at December 31, 2008 was 29 years.

#### **Note H. Commitments**

ElectriCities occupies office space in the administrative office building owned by the Agencies and reimburses the Agencies for its share of the building's operating and maintenance costs. During 2011 and 2010, ElectriCities reimbursed the Agencies \$12,840 and \$17,085, respectively, for building operating and maintenance costs.

#### Note I. Risk Management

ElectriCities is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; health and accident insurance claims, and injuries to employees. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage in 2011, 2010 or 2009.

ElectriCities maintains flood coverage for insured property located outside of the 500 year flood plain territory as defined by Federal Emergency Management Agency guidelines; additionally, ElectriCities does not have property that falls within this flood plain territory.

In accordance with G.S. 159-29, all ElectriCities employees, including the finance officer, are bonded with a \$10,000,000 Employee Dishonesty limit per occurrence subject to a \$50,000 deductible.

#### **Note J. Regions Contract Services**

ElectriCities is providing contract services to the electric systems of the towns of Drexel, Lexington and Pineville, all members of ElectriCities, through its Regions Contract Services project. Through this project, ElectriCities provides management and technical services assistance as requested by the members. The services are provided at cost plus reasonable charges for general and administrative expenses. During 2011 and 2010, revenues of \$0 and \$8,445, respectively, were recognized under these agreements.

Other members are eligible for such services by entering into a formal agreement with ElectriCities.

#### **Note K. Subsequent Events**

ElectriCities has evaluated subsequent events through March 24, 2012, in connection with the preparation of these financial statements which is the date the financial statements were available to be issued.

#### ElectriCities of North Carolina, Inc. Schedule of Fund Equity

This part of ElectriCities comprehensive annual financial report presents detailed information about ElectriCities and its member cities as a context for understanding what the information in the financial statements, note disclosures and required supplemental information says about ElectriCities overall financial health. Schedules presented in the Statistical Section differ from financial statements because they usually cover more than one fiscal year and may present non-accounting data. The Statistical Section reflects social and economic data, financial trends and the fiscal capacity of ElectriCities.

CONTENTS	PAGE
Schedule of Fund Equity  This schedule contains information to help the reader understand the various components of fund equity and how they have changed over time.	35
Schedule of Changes in Fund Equity  This schedule contains information to help the reader understand ElectriCities financial performance and how it has changed over time.	36 - 37
Schedule of Membership Dues  This schedule contains information to help the reader understand who ElectriCities dues paying members are and how those dues have been assessed over time.	38 - 41
Schedule of Estimated Population This schedule contains information to help the reader understand about ElectriCities member's populations and how they have changed over time.	42 - 45
Schedule of Customers Served  This schedule contains information to help the reader understand about ElectriCities member's customer base and how they have changed over time.	46 - 49
Schedule of kWh Sold  This schedule contains information to help the reader understand about ElectriCities member's kWh sales and how they have changed over time.	50 – 53
Employee Allocation Schedule This schedule contains information to help the reader understand ElectriCities staffing over time and how that staff has been devoted to ElectriCities efforts.	54
