Independent Auditor's Report

To the Board of Directors ElectriCities of North Carolina, Inc. Raleigh, North Carolina

RSM US LLP

Report on the Financial Statements

We have audited the accompanying financial statements and the aggregate remaining fund information of ElectriCities of North Carolina, Inc. (ElectriCities), which are comprised of the statements of net position as of December 31, 2018 and 2017, and the related statements of revenue and expenses and changes in net position, and cash flows for the years then ended and the related notes to the financial statements, which collectively comprise ElectriCities' basic financial statements, as listed in the accompanying table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements and the aggregate remaining fund information referred to above present fairly, in all material respects, the financial position of ElectriCities of North Carolina, Inc. as of December 31, 2018 and 2017, and the results of its operations and its cash flows for the years ended December 31, 2018 and 2017, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note L to the financial statements, ElectriCities adopted Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions (OPEB)*, which resulted in ElectriCities restating beginning net position for recognition of ElectriCities' OPEB related activity incurred prior to January 1, 2018. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the pension and OPEB related schedules to be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise ElectriCities' basic financial statements. The supplementary information and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The statistical section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

RSM US LLP

Morehead City, North Carolina June 24, 2019

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Unaudited)

Management's Discussion and Analysis (MD&A) (Unaudited)

As management of ElectriCities of North Carolina, Inc. (ElectriCities), we offer this narrative overview and analysis of the financial activities of ElectriCities for the years ended December 31, 2018 and 2017. This information should be read in conjunction with the information furnished in ElectriCities' financial statements that follow this narrative.

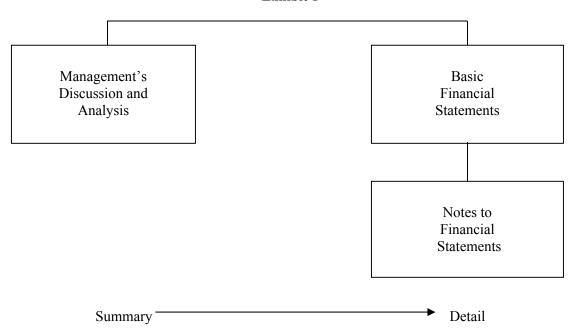

Financial Highlights

- ElectriCities' basic financial statements consist of a single enterprise fund and Other Postemployment Benefits Trust fund.
- ElectriCities' liabilities and deferred inflows exceeded its assets and deferred outflows (net position deficit) by \$2,467,070 at December 31, 2018 and assets and deferred outflows exceeded its liabilities and deferred inflows (net position) by \$15,843 at December 31, 2017.
- ElectriCities' unrestricted net position was a deficit of \$3,452,971 and \$901,075 at December 31, 2018 and December 31, 2017, respectively.
- ElectriCities is not authorized to issue debt and therefore, has no debt.
- Dues billings were \$1,448,766 and \$1,351,613 for 2018 and 2017, respectively.
- In 2018, billed dues exceeded expenses by \$19,727. In accordance with its bylaws, ElectriCities will refund \$19,727 of the billed dues for 2018.
- Prior year dues refund of \$87,865 were appropriated to offset expenditures for the Annual Conference.

Overview of the Financial Statements

This MD&A serves as an introduction to ElectriCities' basic financial statements and notes to the financial statements (see Exhibit 1). In addition to the basic financial statements, this report contains other supplemental information designed to enhance your understanding of the financial condition of ElectriCities.

Required Components of the Annual Financial Report Exhibit 1

Basic Financial Statements

ElectriCities is a special purpose government that accounts for its activities as a business type entity. The first section of the basic financial statements is for ElectriCities' single proprietary fund that focuses on its business activities. The statements are designed to provide a broad overview of ElectriCities' finances and provide short and long-term information about ElectriCities' financial status, operations and cash flow. They report net position and how it has changed during the period. Net position is total assets and deferred outflows of resources less total liabilities and deferred inflows of resources. Analyzing the various components of net position is one way to gauge ElectriCities' financial condition.

The second section of the basic financial statements is the notes that explain in more detail some of the data contained in the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes are on pages 13 through 29 of this report.

After the notes, additional information is provided. Required supplemental information is on pages 30 to 32, additional financial information is on pages 34 to 39 and statistical information is on pages 42 to 62.

Financial Analysis

The enterprise fund financial statements for the years ended December 31, 2018, 2017 and 2016 are presented in accordance with the Codification of Governmental Accounting Standards Board (GASB) pronouncements.

Summarized Statement of Net Position (Deficit) Exhibit 2

	December 31,				
	2018	2016			
Assets					
Capital assets	\$ 985,901	\$ 916,918	\$ 762,038		
Current and other assets	3,278,289	8,259,295	7,343,681		
Total assets	4,264,190	9,176,213	8,105,719		
Deferred Outflows of Resources - Pension	2,822,646	1,582,781	2,619,220		
			<u> </u>		
Liabilities and Deferred Inflows of Resources					
Long-term liabilities outstanding	5,026,409	7,678,436	8,186,862		
Current liabilities outstanding	2,304,556	2,995,765	2,507,429		
Total liabilities	7,330,965	10,674,201	10,694,291		
Deferred Inflows of Resources					
Unexpended dues supported program revenue	-	-	12,557		
Pension Deferrals (Note F)	20,402	68,950	-		
OPEB Deferrals (Note H)	2,202,539		118,581		
Total Deferred Inflows of Resources	2,222,941	68,950	131,138		
Net Position (Deficit)					
Net investment in capital assets	985,901	916,918	762,038		
Unrestricted (deficit)	(3,452,971)	(901,075)	(862,528)		
Total Net Position (Deficit)	\$ (2,467,070)	\$ 15,843	\$ (100,490)		

As noted earlier, the various components of net position may serve over time as a useful indicator of ElectriCities' financial condition. ElectriCities' liabilities and deferred inflows exceeded assets and deferred outflows (net position deficit) by \$2,467,070 at December 31, 2018 and its assets and deferred outflows exceeded liabilities and deferred inflows by \$15,843 at December 31, 2017. Liabilities and deferred inflows exceeded assets and deferred outflows of resources by \$100,490 at December 31, 2016. ElectriCities' net position decreased by \$2,482,913 for the year ended December 31, 2018, increased by \$116,333 for the year ended December 31, 2017 and decreased by \$85,061 for the year ended December 31, 2016.

The portion of net position totaling \$985,901, \$916,918, and \$762,038 at December 31, 2018, 2017 and 2016, respectively, reflects ElectriCities' net investment in capital assets (e.g. vehicles, furniture and equipment). This amount increased in 2018 and 2017 because additional spending on capital assets exceeded depreciation.

The portion of net position deficit totaling \$3,452,971 at December 31, 2018 represents unrestricted net position deficit. The prior year restatement for accounting change of \$(3,168,763) relates to the implementation of GASB 74, "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans", and GASB 75, "Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans" (Refer to Note F on page 23). The OPEB related cost shown below in 2018 increased unrestricted position by \$833,823. The pension related cost shown below in 2018 decreased unrestricted net position by \$216,956.

Summarized Statement of Activity Exhibit 3

Net Position, Beginning of Year, as Restated	(3,152,920)	(100,490)	(185,551)	
Net Position December 31	\$(2,467,070)	\$ 15,843	\$ (100,490)	

Revenues totaled \$31,266,313, \$29,620,734 and \$28,472,492 for the years ended December 31, 2018, 2017, and 2016, respectively. Sources of revenues are derived from membership dues, management services and other program revenues, and non-operating revenues.

The following contributed to the changes in revenues for the calendar years ended December 31, 2018, and 2017, respectively:

- In 2018 and 2017 membership dues increased by \$97,153 and \$67,825, respectively. The increases were attributed to the costs of the 2018 APPA Line Worker Rodeo incurred in 2018 and 2017.
- Management services and other program revenues increased by \$1,544,610 and \$1,079,065 in 2018 and 2017, respectively. The increases were due to upgrade to the SAS system in 2018 and due to changes in consulting project spending in 2017. Refer to Note E on Page 23 of this report for a further explanation of management services.
- Non-operating revenues increased by \$3,816 and \$1,352 in 2018 and 2017 respectively, primarily due to changes in investment rates.
- In 2018 and 2017, net position increased by \$685,850 and \$116,333, respectively.

Capital Assets and Debt Administration

Capital Assets

ElectriCities' investment in capital assets at December 31, 2018, 2017 and 2016 totaled \$985,901, \$916,918 and \$762,038, respectively, (net of accumulated depreciation and amortization). These assets include vehicles, furniture and equipment.

Major capital asset transactions during 2018 and 2017 include the following:

- In 2018 and 2017, eight and two vehicles, respectively, were purchased for \$353,968 and \$108,000.
- Six and two vehicles were retired in 2018 and 2017.
- In both years, purchases of computer hardware and other equipment accounted for the remainder.
- ElectriCities' capitalization threshold for capital assets is \$5,000 for 2018 and 2017.

Additional information regarding ElectriCities' capital assets can be found in Note D on page 21 of this report.

Outstanding Debt

ElectriCities is not authorized to issue debt and therefore, has no outstanding debt at December 31, 2018, 2017 or 2016.

Next Year's Budgets and Dues

Budget Highlights for 2019

- There is no increase in dues.
- Member Programs includes Safety & Training, Government Affairs, Member Services and Emergency Assistances Programs. These programs are supported by a combination of dues and certain program specific revenues. Member Programs also includes Annual Meeting and Technical Conference which were grouped in the Self-Supporting category in prior years' budgets. Member Programs expenses increase 1.0%.
- Management Services and Western Operations programs are paid for by those entities utilizing the services and receive no dues support.

Requests for Information

This report is designed to provide an overview of ElectriCities' finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Chief Financial Officer, ElectriCities of North Carolina, Inc. P.O. Box 29513, Raleigh, NC 27626-0513.

Note A. General Matters

ElectriCities of North Carolina, Inc. (ElectriCities) is a joint municipal assistance agency organized under Chapter 159B of the North Carolina General Statutes (G.S.). It is the successor organization of ElectriCities of North Carolina created in 1965 as a voluntary, non-profit association to serve the interests of North Carolina's municipal electric systems. ElectriCities provides aid and assistance to member municipalities in North Carolina, South Carolina and Virginia, and to member constituent institutions of the University of North Carolina in the construction, ownership, maintenance, expansion and operation of their electric systems.

ElectriCities is involved in four major areas of activity on behalf of its members: (1) professional management services for the North Carolina Municipal Power Agencies (Agencies) (see Note E); (2) federal regulatory matters; (3) legislation and other public policy issues; and (4) member services, which include assistance with local problems, informational services and safety and training assistance.

The members are assessed annual dues to fund the various programs except for management services which is funded by the Agencies (see Note E), Western Operations which is funded by Huntersville/Cornelius, Lexington and Pineville, Regions Contract Services which is funded by those cities utilizing the services, the Demonstration of Energy and Efficiency Developments (DEED) program which is funded by the American Public Power Association (APPA), and the Annual Meeting which is funded by registrations, sponsorships and other fees. ElectriCities' bylaws require that each year's excess revenues (modified accrual basis) be refunded to its members in good standing in a future year.

Note B. Summary of Significant Accounting Policies

The financial statements of ElectriCities are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of ElectriCities' accounting policies are described below.

ElectriCities reports in accordance with GASB Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments" (GASB No. 34), as amended. The statement requires certain information be included in the financial statements and specifies how that information should be presented.

Basis of Accounting

The accrual basis of accounting is followed whereby revenues are recognized when earned and expenses are recognized when incurred.

Note B. Summary of Significant Accounting Policies (continued)

Financial Reporting

The financial statements are prepared using the economic resources measurement focus. Operating revenues are defined as dues and revenues received for Agency services provided to members. Revenues from investment activities are defined as non-operating revenues. ElectriCities has a deficit of \$3,452,971 in unrestricted net position. Unrestricted net position may be utilized for any purpose approved by the Board through the budget process.

Reporting Entity

In evaluating how to define ElectriCities for financial reporting purposes, management has considered all potential component units. The decision to include potential component units in the reporting entity is made by applying the criteria set forth in the GASB standards. ElectriCities' lack of financial accountability is the primary criterion for excluding potential component units from the reporting entity. The specific elements of financial accountability considered in the decision to exclude the potential component units were the selection of governing authority and fiscal dependency.

While ElectriCities provides assistance to member municipalities, it has no financial accountability for any of them. Therefore, none of the member municipalities are included as component units of ElectriCities.

Fund Accounting

ElectriCities reports as a single enterprise fund. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises.

Trust Fund

Trust funds are used to report resources that are required to be held in trust for the members and beneficiaries of other postemployment benefit plan. The Other Postemployment Benefits Trust Fund accounts for ElectriCities' contributions for healthcare coverage provided to qualified retirees.

Measurement Focus

The enterprise fund of ElectriCities is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflow of resources, and liabilities and deferred inflows of resources associated with the operation of this fund are included on the balance sheet. The operating statement presents increases (revenues) and decreases (expenses) in net position. As required by GASB Statement No. 33, "Accounting and Financial Reporting for Non-Exchange Transactions," (as amended) ElectriCities recognizes capital contributions as revenue.

Budgetary Data

An annual balanced budget, as required by the Local Government Budget and Fiscal Control Act, is adopted and is prepared using the modified accrual basis of accounting.

Budgetary control on expenditures is at the total expenditure level. Individual line item expenditures can exceed budgeted amounts as long as total expenditures do not exceed budgeted amounts. The budget can be amended at any time by majority vote of the Board of Directors.

Note B. Summary of Significant Accounting Policies (continued)

Encumbrance accounting, under which purchase requisitions for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is used. Only those encumbrances outstanding at year-end for which there are contractual liabilities are reported. Unspent budget appropriations lapse at year-end and must be budgeted again in the following year.

Equipment and furnishings additions are budgeted as an expense of the year they are acquired in order to provide sufficient funds to purchase the assets. Depreciation for each program is not budgeted.

Cash, Cash Equivalents and Investments

ElectriCities reports according to the provisions of GASB Statement No. 72 "Fair Value Management and Application" which requires investments to be reported at fair value, GASB Statement No. 79 "Certain External Investment Pools and Pool Participants," which allows certain whole investment pools to be reported at amortized cost, and GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools," which allows certain investments to be reported at amortized cost. In addition, ElectriCities reports according to the provisions of GASB Statement No. 40 "Deposit and Investment Risk Disclosures" which addresses common investment risks related to credit risk, concentration of credit risk and interest rate risk.

At December 31, 2018 and 2017, ElectriCities' investment balances consisted of amounts invested in the North Carolina Capital Management Trust (NCCMT). NCCMT's Government portfolio is a cash portfolio. The NCCMT Government portfolio is a SEC-registered 2a-7 external investment pool measured at amortized cost, which is NCCMT's share price of \$1. The NCCMT Term portfolio securities are measured at fair value. For both portfolios, the valuation of the underlying assets is performed by the custodian. The investment in these money market mutual funds have been reported as cash equivalents in the accompanying financial statements.

	_	December 31, 2018		December 31, 2018		Decem	ber 31, 2017
	Method of Valuation	Cost Basis	Reported Value	Cost Basis	Reported Value		
U.S. Government Agencies	Fair Value Level 1	-	-	\$3,411,805	\$3,384,381		
Treasury Coupons	Fair Value Level 1	-	-	641,672	640,047		
Money Market							
NC Capital Management Trust -Government Portfolio	Amortized Cost	648,368	648,368	1,052,918	1,052,918		
NC Capital Management Trust-Term Portfolio	Fair Value Level 1	616,476	616,476	14,408	14,408		
Sub-total funds invested	-	1,264,844	\$1,264,844	5,120,803	5,091,754		
Cash		313,801	313,801	839,003	839,003		
Total Funds Invested	-	\$1,578,645	\$1,578,645	\$5,959,806	\$5,930,757		

For purposes of the Statements of Cash Flows, ElectriCities considers all highly liquid investments with original maturities of three months or less when purchased, to be cash equivalents.

All investments valued at fair value are measured using the market approach, using prices and other relevant information generated by market transactions involving identical or comparable assets or a group of assets. Fair Value Level 1 debt securities are valued using directly observable, quoted prices (unadjusted) in active markets for identical assets. Fair Value Level 2 securities are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities benchmark quoted prices.

Note B. Summary of Significant Accounting Policies (continued)

ElectriCities OPEB Trust Fund investments were reported at book value:

	_	December 31, 2018	
	Method of Valuation	Cost Basis	Reported Value
U.S. Government Agencies	Fair Value Level 1	\$3,226,501	\$3,226,585
Treasury Coupons	Fair Value Level 1	644,757	644,810
Money Market			
NC Capital Management Trust-Term Portfolio	Fair Value Level 1	356,952	356,952
Sub-total funds invested	_	4,228,210	\$4,228,347
		22,473	22,473
Cash	_	3,125	3,125
Total Funds Invested		\$4,253,808	\$4,253,945

Compensated Absences

It is ElectriCities' policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Vacation pay is accrued when incurred and reported as a liability. When determining the vacation pay liability due within one year, leave is considered taken on the last in, first out (LIFO) basis. Unused vacation pay is paid to the employee at the time of termination. Unused sick pay benefits terminate with an employee's employment and therefore no liability is reported for unpaid accumulated sick leave.

Accrued vacation was \$1,682,363 and \$1,555,637 at December 31, 2018 and 2017, respectively, and increased by \$126,726 in 2018 and by \$126,837 in 2017.

Defined Benefit Pension Plan

ElectriCities has adopted GASB Statement No. 27, "Accounting for Pensions by State and Local Government Employers," (GASB No. 27) and GASB Statement No. 68, "Accounting and Financial Reporting for Pensions-an amendment to Statement No. 27" which states that employers that participate in multi-employer defined benefit plans are required to measure and disclose an amount for annual pension costs on the accrual basis of accounting. See Note F.

Retiree Health Benefit Plan

ElectriCities has adopted GASB Statement No. 75 "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". See Note H.

Capital Assets

The capitalization threshold for capital assets with estimated useful lives of greater than one year is \$5,000 effective January 1, 2015. Equipment and furnishings are valued at historical cost. Depreciation is recorded on a straight-line basis over the estimated useful lives of respective assets which range from three to ten years.

Statistical Section - Unaudited

GASB Statement No. 44 "Economic Condition Reporting: The Statistical Section" (as amended) enhances and updates the statistical section that accompanies a state or local government's basic financial statements to reflect the significant changes that have taken place in government finance, including the more comprehensive government-wide financial information required by GASB. The statistical section comprises schedules presenting trend information about revenues and expenses, outstanding debt, economics and **Note**

B. Summary of Significant Accounting Policies (continued)

demographics, and other subjects. These schedules are intended to provide financial statement users with contextual information they need to assess a government's financial health.

Taxes

Income of ElectriCities is excludable from federal income tax under Section 115 of the Internal Revenue Code.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources and liabilities and deferred inflows of resources and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Net Pension Liability

The net pension liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plan's fiduciary net position. The pension plan's fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period. The net pension liability is reported in the statement of net position. In the governmental funds, expenditures are recognized when they are paid or are expected to be paid with current available resources.

Net OPEB liability

The net OPEB liability is measured as the portion of the actuarial present valuer of projected benefits that is attributed to past periods of employee service (net OPEB liability). The net OPEB liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period. The net OPEB liability is reported in the statement of net position. ElectriCities established an OPEB Trust account to fund the OPEB liability and to pay OPEB benefits.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, Deferred Outflows of Resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. ElectriCities has one item that meets this criterion – pension deferrals for the 2018 fiscal year. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, Deferred Inflows of Resources, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. ElectriCities has two items that meet the criterion for this category pensions and OPEB deferrals.

Note B. Significant Accounting Policies (continued)

Recently Adopted GASB Standards

In June 2015, GASB issued Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans". The requirements of this Statement will improve the decision-usefulness of information in employer and governmental non-employer contributing entity financial reports and will enhance its value for assessing accountability and inter-period equity by requiring recognition of the entire OPEB liability and a more comprehensive measure of OPEB expense. As a result of the implementation of GAB Statement No. 75 for the year ended December 31, 2018, an additional footnote disclosure has been included (see Note L) to describe the impact for this change in accounting principle/restatement.

In March 2016, GASB issued Statement No. 82, "Pension Issues – An Amendment of GASB Statements No. 67, No. 68, and No. 73". The objectives of this Statement are to address issues that have been raised regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. This Statement did not have a material impact on the Agency's financial position, overall cash flow or balances or results of operations.

In March 2017, GASB issued Statement No. 85, "Omnibus 2017". This Statement addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement is effective for reporting periods beginning after June 15, 2017 and did not have a material impact on the Agency's financial position, overall cash flow or balances or results of operations.

In May 2017, GASB issued Statement No. 86, "Certain Debt Extinguishment Issues". The primary objective of this statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. This Statement is effective for fiscal years beginning after June 15, 2017 and did not have a material impact on the Agency's financial position, overall cash flow or balances or results of operations.

Future GASB Standards

Management has not concluded its evaluation of the impact, if any, on implementation of the following GASB pronouncements may have on ElectriCities' financial Statements.

In November 2016, GASB issued Statement No. 83, "Certain Asset Retirement Obligations". This statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on this guidance. This Statement is effective for fiscal years beginning after June 15, 2018.

Note B. Summary of Significant Accounting Policies (continued)

In January 2017, GASB issued Statement No. 84, "Fiduciary Activities". This Statement established criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria is generally on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.

In June 2017, GASB issued Statement No. 87, "Leases". The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases. This Statement is effective for fiscal years beginning after December 15, 2019.

In April 2018, GASB issued Statement No. 88, "Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements". The primary objective of this statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. This statements also clarifies which liabilities governments should include when disclosing information related to debt. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018.

In June 2018, GASB issued Statement No. 89, "Accounting for Interest Cost Incurred Before the End of a Construction Period". The objectives of this statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

In August 2018, GASB issued Statement No. 90, "Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 61". The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. This Statement is effective for fiscal years beginning after December 15, 2018.

Note C. Deposits

All deposits of ElectriCities are made in board-designated official depositories and are collateralized as required by North Carolina General Statute 159-31. Official depositories may be established with one or more banks, savings and loan associations or trust companies in North Carolina or, with written permission of the secretary of the Local Government Commission (LGC), a national bank located in another state. ElectriCities may also deposit monies at interest in those institutions described in the form of certificates of deposit, money market accounts or other forms of time deposits as the LGC may approve. At December 31, 2018 and 2017, ElectriCities' deposits had carrying amounts of \$313,801 and \$839,003, respectively and bank balances of \$123 and \$938, respectively. For each of the bank balances, up to \$250,000 was insured by the Federal Depository Insurance Corporation.

At December 31, 2018 and 2017, ElectriCities investments consisted of \$1,264,843 and \$5,091,754, respectively, in U.S. Government Agencies, Treasury Coupons, NCCMT's Government Portfolio, which carried a credit rating of AAA by Standard and Poor's, and investments in NCCMT's Term portfolio, which is unrated. The Term portfolio is authorized to invest in obligations of the U.S. Government and agencies, and in high grade money market investments as permitted under North Carolina General Statutes 159-30 as amended. ElectriCities investment choices are limited by North Carolina General Statute 159-31.

The ElectriCities Board of Directors of the Agency approved an Investment Risk Management Policy in 2013. The policy set the overall investment objectives and established sector and issuer guidelines. It is reviewed annually to ensure its compliant with the current law and the Local Government Commission (LGC). ElectriCities places no limit on the amount the it may invest in direct obligations of the United States Treasury and mutual funds certified by the LGC.

For cash and investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, ElectriCities will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. ElectriCities has no formal policy regarding custodial credit risk.

In accordance with GASB No. 42, ElectriCities will assess the recoverability of its long-lived assets whenever events or changes in circumstances indicate the carrying amount may have been impaired. During 2018 and 2017 ElectriCities determined that such an assessment was not necessary.

Note E. Management Services

North Carolina Eastern Municipal Power Agency and North Carolina Municipal Power Agency Number 1 ("Power Agencies") are joint agencies organized and existing pursuant to Chapter 159B of the General Statutes of North Carolina to enable municipal electric systems, through the organization of the Agencies, to finance, build, own and operate generation and transmission projects. The Agencies are comprised of 51 municipal electric systems which receive power from the Agencies. All of the Agencies' members are also members of ElectriCities.

ElectriCities entered into a contract with each Agency to provide them, at cost, management services as necessary to conduct their business. These agreements are for a period continuing to and including December 31, 2019, and are to be automatically renewed for successive periods of three years thereafter unless terminated by one year's written notice by either party prior to the end of any contract term. Such notice had not been provided as of December 31, 2018.

Note F. Pension Plan

<u>Plan Description</u>

ElectriCities is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Local Governmental Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454, or at ww.osc.nc.gov.

Note F. Pension Plan (continued)

Benefits Provided

LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

LGERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Funding Policy

Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. Plan members are required to contribute 6.0% of their salary. ElectriCities contributes at an actuarially determined rate. The required rate of 7.5% and 7.25% annual covered payroll in 2018 and 2017, respectively, actuarially determined as an amount that, when combined with employee contributions, are expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from ElectriCities were \$941,388 and \$822,520 for the year ended December 31, 2018 and 2017, respectively.

Refunds of Contributions

Employees, who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60-day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

Note F. Pension Plan (continued)

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension</u>

ElectriCities reported liabilities of \$3,941,172 and \$2,435,802 at December 31, 2018 and 2017, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018. The total pension liabilities used to calculate the net pension liabilities were determined by actuarial valuations as of December 31, 2017 and 2016. The total pension liability was then rolled forward to measurement dates of June 30, 2018 and 2017 utilizing update procedures incorporating the actuarial assumptions. ElectriCities' proportion of the net pension liability was based on a projection of ElectriCities' long-term share of future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. The ElectriCities proportion was 0.16613% and 0.15944% as at June 30, 2018 and 2017 respectively, which was an increase of 0.00669% from its proportion measured as of June 30, 2017 and a decrease of 0.00001% from its proportionate share measured as at June 30, 2016.

For the year ended December 31, 2018, the ElectriCities recognized pension expenses of \$216,956. At December 31, 2018, ElectriCities reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	red Outflows Resources	 red Inflows Resources
Differences between expected and actual experience	\$ 608,029	\$ 20,402
Changes of assumptions	1,045,835	-
Net difference between projected and actual earnings on pension plan investments	541,006	-
Changes in proportion and differences between ElectriCities contributions and proportionate share of contributions	151,956	-
Contributions subsequent to the measurement date Total	\$ 475,820 2,822,646	\$ 20,402

\$475,820 reported as deferred outflows of resources related to pensions resulting from ElectriCities contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended December 31, 2019.

Note F. Pension Plan (continued)

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expenses as follows:

2018	Year ended December 31:	
	2019	\$1,105,322
	2020	724,637
	2021	159,409
	2022	337,056
	2023	-
	Thereafter	-
		\$2,326,424

Actuarial Assumptions. The total pension liabilities in the December 31, 2018 actuarial valuation were determined using the following actuarial assumptions, applied to all periods included in the measurements:

2018

Inflation 3.0 percent

Salary increases 3.5 to 8.10%, including inflation and productivity factor

Investment rate of return 7.0%, net of pension plan investment expense, including inflation

The plan currently uses mortality tables that vary by age, gender, and employee group (i.e. general, law enforcement officers) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

Note F. Pension Plan (continued)

The actuarial assumptions used in the December 31, 2017 valuation was based on the results of an actuarial experience study of the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation for each major asset class of June 30, 2018 is summarized in the following table:

		Long-Term Expected
Asset Class	Target Allocation	Real Rate of Return
Global Equity	42.0%	5.3%
Fixed Income	29.0%	1.4%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Total	100%	

The information above is based on 30 year expectations developed with the consulting actuary for the 2017 asset, liability, and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.0%. All rates of return and inflation are annualized.

Discount Rate. The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutory required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note G. Supplemental Retirement Plans

Sensitivity of the ElectriCities proportionate share of the net pension asset to changes in the discount rate. The following presents the ElectriCities's proportionate share of the net pension asset calculated using the discount rate of 7.0%, as well as what the ElectriCities' proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.0%) or 1 percentage point higher (8.0%) than the current rate:

<u>2018</u>	1%	Current Discount	1%
	Decrease (6.00%)	Rate (7.00%)	Increase (8.00%)
ElectriCities' proportionate share of the net	(0.0070)	(7.0070)	(0.0070)
pension liability (asset)	\$ 9,467,036	\$ 3,941,172	\$ (676,327)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

The Agency offers their employees a deferred compensation plan created in accordance with Internal Code Section 457 and a 401(k) supplemental retirement income plan through the State of North Carolina that is also in compliance with the Internal Revenue Code. All regular, full-time employees are eligible to participate in one or both of the plans.

The deferred compensation plan permits participants to defer a portion of their salaries to future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The Agency has complied with changes in the laws which govern deferred compensation plans, requiring all assets of the plan to be held in trust for the exclusive benefit of the participants and their beneficiaries. The 401(k) supplemental retirement income plan allows eligible participants to contribute up to the maximum allowable under the law as a percentage of base salary.

The Agency's contributions to the 401(k) plan were \$308,260 and \$278,843 for the years ended December 31, 2018 and 2017 respectively.

Note H. Other Post-Employment Benefits

Plan Description

ElectriCities provides post-employment health benefits to certain retired ElectriCities employees. ElectriCities of North Carolina, Inc. provides medical benefits to its retirees by allowing them to stay in their plan if the retiree is under age 65 or reimburse the retiree for their premium (up to a maximum amount) if the retiree is over 65 and/or decides to purchase other coverage. It is a single-employer defined benefit plan. This is the only Other Post-Employment Benefits (OPEB) under GASB No. 45, 74 and 75 which ElectriCities has.

An employee that retires with at least 15 years of employment with ElectriCities, with at least 25 years of credited service in the LGERS and elects an unreduced (full) retirement is eligible for the retiree health benefit. ElectriCities reimburses the employee's health benefit premium at 80% (25 to 29 years of credited service with LGERS) or 100% (30 or more years of credited service with LGERS) of the "employee only" premium for individual major medical (including prescription drug) coverage. If the employee keeps the retiree health coverage in force until they become eligible for Medicare, ElectriCities reimburses 50% of the "employee only" premium for major medical (including prescription drug) coverage under the ElectriCities group insurance or the actual amount incurred for a supplemental Medicare policy, whichever is less.

A separate report has not been issued for the Retiree Health Benefit Plan. Membership of the OPEB Plan consisted of the following at January 1, 2019 the date of the latest valuation:

Retirees receiving benefits	31
Active plan members	48
Total	79

Funding Policy

ElectriCities finances the Retiree Health Benefit Plan with actuarially determined annual contributions from the Power Agencies that are deposited in the irrevocable trust (OPEB Trust) established in 2018 as per Resolution BDR-8-18 for future retiree health insurance premiums. The funds are used to pay the health insurance premiums incurred under the Plan. The cumulative contributions are included in the "Cash and Cash Equivalents" as reported on the Statement of Fiduciary Net Position. The assets are solely the property and rights of ElectriCities and will not be subject to the claims of ElectriCities general creditors. ElectriCities will invest assets of the OPEB Trust in the Ancillary Governmental Participants Investment Program (AGPIP) maintained by the Treasurer of the State of North Carolina as determined by the Board of Directors.

Under the new accounting standards, the OPEB expenses for the fiscal year is determined at the end of the fiscal year to reflect any plan amendments, assumption changes and gain and losses during the fiscal year.

The Board of Directors reserves the right and shall have complete discretion to amend, modify or terminate these benefits at any time. If the Retiree Health Benefit Plan is terminated, any amounts funded

Note H. Other Post-Employment Benefits (continued)

in excess of premiums paid to date will be refunded to the Power Agencies. ElectriCities does not anticipate that the Plan will be amended or terminated during 2019. Accordingly, ElectriCities has recorded a non-current post employment obligation and accrued expense liability for the unexpended amount of funds collected from the Power Agencies for the financing of the Retiree Health Benefit Plan as of December 31, 2018, and future years, respectively.

Net OPEB Liability

In accordance with new GASB No. 74 and 75 standards, the Net OPEB Liability is the excess, if any, of the Total OPEB Liability over the Fiduciary Net Position. The Total OPEB Liability is determined under the Entry Age Normal actuarial cost method. Net OPEB Liability as of December 31, 2018 is as shown in the table below.

Net OPEB Liability

	 2018
Total OPEB liability	\$ 4,350,370
Fiduciary net position	\$ 4,217,970
Net OPEB liability	\$ 132,400
Plan fiduciary net position as a percentage	
of the total OPEB liability	96.96%

ElectriCities annual OPEB cost is determined at the end of the fiscal year to reflect any plan amendments, assumption changes and gain and losses during the fiscal year. The OPEB related costs for the fiscal year ending December 31, 2018 is as follows:

Note H. Other Post-Employment Benefits (continued)

Actuarial Methods and Assumptions

The Total OPEB liability and the normal cost was determined by actuarial valuation as of January 1, 2019 using the Entry Age Actuarial Cost Method. Under this method, the cost of each individual's benefit is allocated on a level percent of payroll basis between the time employment starts (entry age) and the assumed retirement date. The normal cost is the amount allocated for a given year and actuarial liability is the accumulation of prior normal costs as of the determination date. The total actuarial liability for retirement benefits is the sum of the actuarial liability for all members.

The total OPEB liability was determined by actuarial valuation as of January 1, 2019 using the following actuarial assumptions:

Valuation date	January 1, 2019
Measurement date	December 31, 2018
Reporting date	January 1, 2018 to December 31, 2018
Inflation	2.75 percent per year
Salary increase	2.5 percent per year
Investment rate of return	7 percent
Healthcare cost trend rates	7.5 percent for 2019 decreasing 0.25 percent

each year for the next 4 years to 6.5 percent in 2023

Sensitivity of the net OPEB liability to change in the discount rate

The following presents the ElectriCities net OPEB liability at December 31, 2018, as well as what the ElectriCities net OPEB liability would be if it were calculated using a discount rate that is 1% lower (6%) or 1% higher (8%) than the current rate:

		Current	
	1% Decrease	Discount Rate	1% Increase
	6.0%	7.0%	8.0%
Net OPEB Liability (Asset)	\$713,847	\$132,400	(\$345,024)

Note H. Other Post-Employment Benefits (continued)

Sensitivity of the net OPEB liability to change in the healthcare cost trend rate

The following represents the ElectriCities net OPEB liability, as well as what the net OPEB liability would be if it were to calculate healthcare cost trend rates that are 1% lower or 1% higher than the assumed healthcare cost trend rate:

	1% Decrease	Trend Rate	1% Increase
Net OPEB Liability (Asset)	(355,293)	132,400	724,088

As of December 31, 2018, the components of the net OPEB liability measured as of December 31, 2018 were as follows:

	Increase (Decrease)					
	Total OPEB			n Fiduciary	ľ	Net OPEB
	Liability		Net Position			Liability
Balances at December 31, 2017	\$	6,984,087	\$	-	\$	6,984,087
Changes for the Year:						
Service cost		90,331		-		90,331
Interest on the total OPEB liability		240,182		-		240,182
Difference between expected and actual experience		(87,976)		-		(87,976)
Changes of assumptions		(2,665,198)		-		(2,665,198)
Contributions				211,056		(211,056)
Net investment income		-		-		-
Benefit payments		(211,056)		(211,056)		-
Change in net position		-		4,217,970		(4,217,970)
Net changes		(2,633,717)		4,217,970		(6,851,687)
Balances at December 31, 2018	\$	4,350,370	\$	4,217,970	\$	132,400

Changes of assumptions

Change of assumptions reflect a change in the discount rate from 3.44 percent in 2018 to 7.00 percent in 2019 to reflect the ultimate assets allocation expected rate of return for the OPEB plan. The mortality table has been updated to reflect the most recent projection scale from the MP-2017 scale to the MP-2018 scale. Medical claims cost and rates were changes based on most recent experience and changed to the current schedule.

Note H. Other Post-Employment Benefits (continued)

At December 31, 2018, ElectriCities reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		d Outflows esources	Deferred Inflo				
Differences between expected and actual ecperience	\$	-	\$	(70,381)			
Changes of assumptions		-		(2,132,158)			
Net Difference between projected and actual earnings on plan investments		-		-			
Contributions subsequent to the measurement date	.		<u></u>	- (2.202.520)			
Total	\$	_	\$	(2,202,539)			

Amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended December 31:	Amounts
2019	(\$550,635)
2020	(\$550,635)
2021	(\$550,635)
2022	(\$550,634)
2023	\$0
Thereafter	\$0

Note I. Commitments

ElectriCities occupies office space in the administrative office building owned by the Agencies and reimburses the Agencies for its share of the building's operating and maintenance costs. During 2018 and 2017, ElectriCities reimbursed the Agencies \$12,840 and \$12,840, respectively, for building operating and maintenance costs.

Note J. Risk Management

ElectriCities is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; health and accident insurance claims, and injuries to employees. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage in 2018 or 2017.

ElectriCities maintains flood coverage for insured property located outside of the 500 year flood plain territory as defined by Federal Emergency Management Agency guidelines; additionally, ElectriCities does not have property that falls within this flood plain territory.

In accordance with G.S. 159-29, all ElectriCities employees, including the finance officer, are bonded with a \$10,000,000 Employee Dishonesty limit per occurrence subject to a \$50,000 deductible.

Note K. Subsequent Events

ElectriCities has evaluated subsequent events through June 24, 2019, in connection with the preparation of these financial statements which is the date the financial statements were available to be issued.

Note L. Change in Accounting Principles/Restatement

ElectriCities implemented Governmental Accounting Standard Board (GASB) No. Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions", in the year ending December 31, 2018. The implementation of the statement required ElectriCities to record beginning net OPEB liability during the measurement period (year ending December 31, 2017). As a result, net position decreased by \$3,168,763. ElectriCities has applied the adopted changes to conform with this statement effective December 31,2017 and has elected not to restate the financial statement for all prior periods presented due to impracticality reasons. This treatment is permissible as prescribed under the effective date and transition guidance of the statement.

STATISTICAL SECTION

(Unaudited)

ElectriCities of North Carolina, Inc. Schedule of Net Position (Unaudited) Last Ten Fiscal Years

This part of ElectriCities comprehensive annual financial report presents detailed information about ElectriCities and its member cities as a context for understanding what the information in the financial statements, note disclosures and required supplemental information says about ElectriCities' overall financial health. Schedules presented in the Statistical Section differ from financial statements because they usually cover more than one fiscal year and may present non-accounting data. The Statistical Section reflects social and economic data, financial trends and the fiscal capacity of ElectriCities.
